Actually, it's six.

You put a lot of sweat equity into making your house a home. And now you can even find the perfect control to complement your home décor with the Edge™ thermostat.

The custom doors* concept is new to the industry and is exclusively from Carrier. With six distinctly different options to choose from, you can go bold, traditional or somewhere in between to match any room's style.

Best of all, these doors can be swapped out at any time, so if you ever get inspired to change up a room's look, you can easily order a new door that fits right in. Just call your Carrier dealer with the color ID located in the bottom right corner of each swatch.
